Thanks Sven – I just spoke with SEPW majority and they affirmed this request. Any efforts you all can undertake to prioritize, there is a better chance our TA will be considered with any legislation that may be included. Thank you all for your efforts to date and for everything moving forward.

Best,
Tony

Subject: SEPW TA Requests on PFAS and TSCA

Heads up that we have several new TA requests this week from Senate EPW on PFAS and TSCA issues. They are bipartisan requests (Barrasso and Carper) and are accelerated due to trying to get language into the defense authorization bill moving next week. Also, there is a possibility of a June 19 SEPW business meeting

that will include PFAS bills. SEPW requests any responses as soon as possible and no later than Monday. I understand that TSCA folks are under a crush right now to meet the statutory deadlines. We should let the committee know if we're not going to be able to respond by Monday. There are additional PFAS TA requests that we are working on with OW and OLEM. Please let me know if any questions. Thanks,
Sven
